Work Experience

General Laborer

Weathertight Construction - Mentor, OH
February 2019 to Present

Responsible to make sure the jobsite is set up correctly to make the job smooth and successful. Gathering material and tools required for the job at that current time and date, depending on the demand for the job. Dispose all unwanted material and replace with new.

- Roofing
- Siding
- Gutters
- Windows
- Additions
- Decks
- Interior
- Remodeling

MANUFACTURING Anode/cathode tech

DeNora Tech - Chardon, OH
January 2013 to September 2019

My position was a Line Leader that helped maintain the safest and most productive way to get the task on hand running smoothly on the coating line. Worked as a Team to apply coating to anode/cathode products by Automatic Roller Coater (ARC) or by hand, hanging on the conveyor line for curing process. Controlled the ARC to make sure it was running smoothly and made the correct set up for the specific job. Most important was to make sure the job was being done correctly in a safe manner to prevent injury.

- applied coating to product by using an Automatic roller coater
- familiar with Hand Rolling parts
- use of X- Ray gun
- SEP certified
- Overhead cranes
- Batch ovens

- Ergo/Pallet jacks
- Forklift/Tow motor
- Line Leader to help maintain the safest and most productive way to get the task on hand running smoothly.

General Laborer

Cometic Gasket - Concord, OH

April 2009 to November 2012

Emboss and rivet automotive head gaskets including those for Nascar. Make sure the die was the correct size and shape for the head gasket before being embossed. Checked and cleaned die for imperfections for best quality of the head gasket before embossing.
