System Layout

Channels

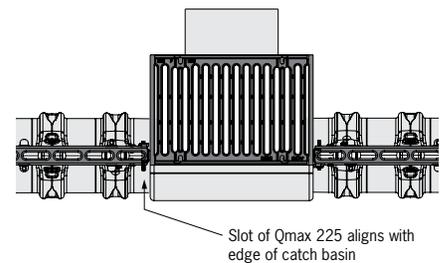

78.74" (2m) long MDPE channels with ductile iron slotted top, factory assembled to the body with 20 fixing points bolts. Channels are neutral depth.

Catch Basin

2-part catch basin comprising:
 Polymer concrete top with Load Class F ductile iron slotted grate that is locked down by 4 qty M10 bolts.
 Fiberglass catch basin base with 12" outlet pipe to ensure excellent hydraulic output.

Alignment of top detail to catch basin

MDPE End Cap

Push fits over the male end of the channel, or push fits into the female end of the channel.
